*The year 1985-86 started with an enjoyable weekend. Students from the 2nd, 3rd, & 4th year classes welcomed 156 future O.D.'s to ICO. Activities included tours of the new facilities, eye exams from 3rd year clinicians, a wine and cheese party, softball games and finally a trip to Wrigley Field to see the Cubbies. The Insights staff welcomes these future doctors; it is our hope that their climb through the years here will be prosperous.*

*Each school year begins with the fall picnic. This is one of the first opportunities for members of all the classes as well as faculty and staff to get together and have a good time. Softball and volleyball provide healthy competition between classes. This year the SLUDS were victorious in the softball tournament. Congratulations!*

*Dan McGehee finished 1st  
in SVOSH's first 8K run,  
while Haniel Roby and  
Steve Schneid strolled in  
last. Thanks to all runners,  
especially Dr. Rosenbloom,  
who acquired the most  
pledges.*

*This year ICO proudly hosted the AOSA congress. Students gathered from all the schools of optometry to attend lectures and meet other students. The evenings were filled with merriment and fellowship. Festivities included a sock hop, Kings Manor, Gangster Night & the closing banquet. Linda Weil and her committee did an excellent job. PCO try and top us!*

*Chicago - our home for four years holds many memories for all of us.*

*No one can forget visiting museums, seeing a concert in Grant Park or the parties on Rush Street. This year however will be remembered as the year the Bears won the World Championship.*

Since becoming involved in academic administration at ICO, it has been my goal and that of the Board of Trustees to provide our students with the best educational environment possible. This required many changes in both the academic program and physical facilities. It takes time to bring about the necessary changes and because of this, your entire student life here was marked by a transitional period for the institution. We thank you for your patience and your understanding during these times.

The education you have received at the Illinois College of Optometry will enable you to practice full scope, primary care optometry. You are entering the profession at an exciting time, and I hope you will commit yourselves to become involved in guiding its continued growth and progress.

My sincere good wishes for success in your chosen career.

Cordially,

Boyd B. Banwell, O.D., D.O.S.  
President

## Class Representatives

*As we reflect on our four years at ICO, we realize how short our stay really was. We remember many sleepless nights studying for the endless exams and practicals, long days in class, and many changes in administration and clinical policies. Most of all we remember the friendships we've made and the good times we've shared. These are what has made our four years in Chicago, memorable.*

*We hope that each and everyones personal and professional goals are met. May each of you enjoy success, health, and happiness. Good luck to everyone and we hope to see you conventionneering!*

As I close this chapter of my life and begin yet another in pursuit of my chosen career, I bid friends, faculty and classmates a fond farewell. As your classmate and now colleague, remember your neighbor to the North. May the bridge we built together in four short years remain permanently affixed and may you cross it often.

To my father who serves as my model of inspiration and aspiration, thanks for your unceasing love and support. I like you, desire to further the course of Optometry in our country without sacrificing ethics or ideals as you have done throughout your career.

To my mother thank you also for your unceasing love, support and special understanding that has made this day a reality.

To Mayma the woman I love and who joins me now, may our life together be rich and full.

To my sisters and brother and immediate family; heart filled thanks. May the loving bond that binds us and serves as my religion forever remain unbroken.

Today for me fulfills a dream. For so long a dream; now reality, I too now, can join my father in practice as he similarly had joined his.

## ACHIEVEMENT

There's no thrill in easy sailing.  
When the sky is clear and blue:  
There's no joy in merely doing things which anyone can do.  
But there is some satisfaction that is mighty sweet to take,  
When you've reached a destination  
That you thought you couldn't make!

You look marvelous darling!

Case: Mai Ta vs V T Rotation  
One thing I got out of ICO was to differentiate  
between a bean bag and a great cushion?? Be-  
fore my "inspiring" V.T. rotation, I had no idea  
what a bean bag looked like (foreigner!) So on  
my very first V.T. "victim", I was supposed to  
work with a wayne saccadic fixator and a bean  
bag for balance . . . you guessed it, my poor  
patient couldn't even blink to keep that over-  
sized seat cushion on his head. Dr. Beckerman  
looked at me, wearily and said: Nice try Mai,  
Now use a real bean bag!

# Class Of 1987

The class of '87 has grown to be a very close group, primarily due to the extensive hours we have spent together this year. Our common goal is coming ever closer and due to the administrative changes in both academics and clinic our class will graduate with more knowledge, experience, and professionalism than any before us. We have seen several changes in our years, not all, but most, positive, working towards molding us into the "New Generation Optometrist". As we look ahead to fourth year and graduation we can hope to excel in clinic and look forward to the last day in our scholastic careers when they bestow upon us the hard-earned degree Doctor of Optometry.

# Class Of 1988

Well we made it half the way through! Even with all the crazy changes that have gone on here, we prevailed. From Nelson's donder's amps. to Clint Lee's "make my day", through Kelly's illusions, and Schlange's "knock, knock, knock" (ZZZ). That's quite an accomplishment! Thanks for all the support on our holiday parties and blindspots. (Our class sure can drink!). Also a special thanks to all those who helped with equipment purchases. Now we just have to figure out how to use it all. Looking forward to an even more productive and fun third year. Let us loose on the real people . . . . . clinic beware!

*Yes, those bananas are ripe and ready to eat.*

# Better Halves

*Motion in the ocean!*

*Don't move or I'll fall*

*Off to Hawaii!*

*How do you spell smitten?*

*Another exciting ICO party, huh Steve?*

*Miami or PA?*

*Caught one!*

# Better Sides

Best picture he ever took.

Ready Rob?

On ICO's 10 most wanted list.

Right now I'm really functional.

Stop it or you'll go BLIND

Soul Train

Which is better one or two

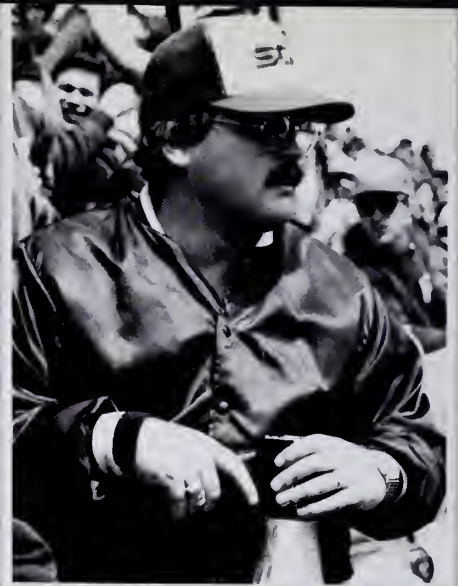

Feels so good!

*Don't get carried away Tamra*

2 to 1.

The  
**HYDROMARC**<sup>TM</sup>  
(etafilcon A) Toric.

A recent independent study\* among volume users of soft lenses shows that practitioners who use the Hydromarc<sup>TM</sup> (etafilcon A) Toric Lens prefer it 2 to 1 over any other.

For these good reasons:

- Unique slab-off design results in exceptional stability.
- **Six** cylinder powers and **three** base curves provide over 10,000 inventoried lens combinations.
- Recognized quality assures repeatability.

Find out for yourself why Hydromarc<sup>TM</sup> (etafilcon A) is the preferred toric lens.
